**Cc:**  
**Subject:** Invalid PCT Customer Number Request - US application

Hello,

The Patent Electronic Business Center received the PCT/Customer Number Association request for PCT application 09489850. Unfortunately the request cannot be processed because the application number is a US application number and not a PCT application number. Please fill out form SB122 (Change of Correspondence Address, Application) in order to associate your application to your customer number. The form can be found on our website at [http://www.uspto.gov/web/forms/sb0122\\_fill.pdf](http://www.uspto.gov/web/forms/sb0122_fill.pdf). This form can be sent via fax at 571-273-8300.

Thank you,

Adrian
